

The Dominos

About

British Rocker Eric Clapton, an 18-time Grammy winner and the only three-time inductee into the Rock and Roll Hall of Fame emulated American Rhythm and Blues to become the most commercially successful guitarist of all time. He has toured and recorded with many notable bands including The Yardbirds, John Mayall and the Bluesbreakers, Cream, Blind Faith, Delaney and Bonnie and Friends, and Derek and The Dominos. His solo recordings have sold over 280 million records. His live performances, supported by Nathan East on bass and Steve Gadd on drums, continue to sell out worldwide. Now comes The Dominos, authentic American R&B players, with their retrospective on the music of Eric Clapton... and the only tribute with a guitarist/vocalist who can do justice to the Clapton catalog. The Dominos present The History of Eric Clapton is an entirely electric set with every tune performed in its original key and tempo. Nearly every arrangement is also true to the original. Randell Young has the same vocal range as Eric Clapton so all of the high notes are going to be there and nearly all of the lead vocals are phrased just like the original recordings. With a few notable exceptions necessary for continuity, the songs are presented in the chronological order of their original release. The Dominos Present: The History of Eric Clapton is generally about two hours in duration with no intermission but can be shortened or expanded to accommodate any format. There are no backing tracks, auto-tune, or sequencing

Short bio

The Dominos present a roughly two-hour electric retrospective of Eric Clapton's music, performed in chronological order with original keys, tempos, and arrangements. Randell Young matches Clapton's vocal range, with no backing tracks, auto-tune, or sequencing.

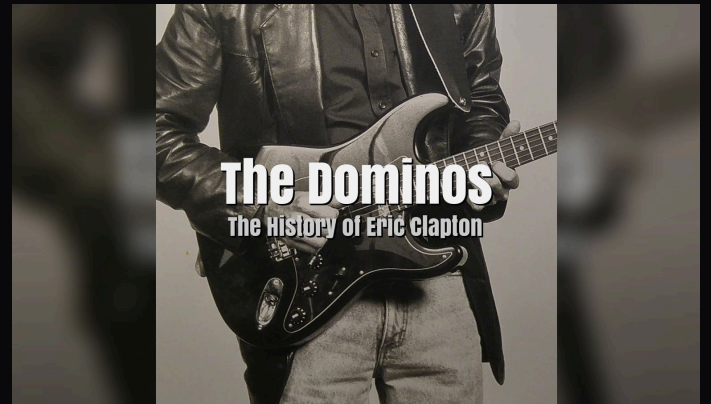

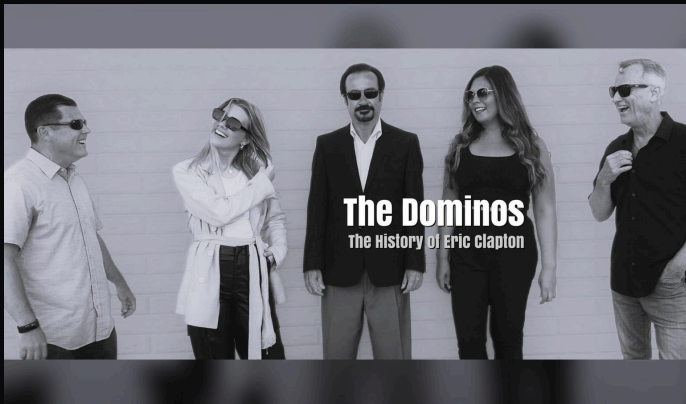

Full press bio

The Dominos present The History of Eric Clapton, an entirely electric retrospective of Clapton's music, generally running about two hours without intermission. Songs are performed in chronological order, with every tune in its original key and tempo and nearly every arrangement true to the original recordings. Randell Young matches Eric Clapton's vocal range, with lead vocals phrased close to the original recordings. The set can be shortened or expanded to accommodate different formats. There are no backing tracks, auto-tune, or sequencing.

Tagline

The history of Eric Clapton, performed live in original keys, tempos, and arrangements
