

The Doves of Peace

Tribute to 80's Hair Metal

About

Peacemaker Playlist

(aka The Doves of Peace as billed by DC Studios, James Gunn, HBO Max, Peacefest & Comic-Con San Diego)

Peacemaker Playlist delivers a full-throttle 1980s rock experience that celebrates the wild, loud, unapologetically over-the-top spirit of glam metal. Their explosive live show brings the era's most iconic hits to life in an arena-sized spectacle of lights, energy, and attitude.

Formed by a powerhouse lineup of elite musicians from top touring tribute acts, they combine tight musicianship with the untamed energy that made the Sunset Strip legendary. Every performance is a love letter to the years when hair was high, guitars screamed, and every chorus demanded to be shouted back by the crowd.

Fronted by the electrifying vocalist ZERO A., the band delivers theatrical flair, commanding stage presence, and a bold take on the era's unmistakable attitude, capturing the excess and excitement that defined 1980s rock.

In the vein of Las Vegas's Raiding the Rock Vault, Peacemaker Playlist blends storytelling, spectacle, and sonic firepower into a show that transcends tribute — part concert, part time machine.

Setlist highlights include hits from Bon Jovi, Journey, Whitesnake, Guns N' Roses, Ozzy Osbourne, Ratt, Wig Wam, Steel Panther, Def Leppard, Mötley Crüe, and more — all delivered with the fire and flair that made them immortal.
